

Dear Parents and Carers,

We have had a very busy week in school with school photographs, bikeability and some keen gardeners helping our playground to look even brighter! We are sorry that we have needed to postpone our Harvest festival today but hope that lots of you can join us on Monday, at 9am in the church for this special celebration.

Year 5 have been working really hard on their cycling skills this week on level 1 and 2 for their bikeability. They have been so proud of all they have achieved and I know this will continue next week as we complete the course. Well done everyone.

Little Green Change, a non-profit environmental education company based in Lyme Regis, joined us in school this week to plant bulbs. This is to increase the number of flowers each Spring, helping beneficial pollinators including early bumblebees, and adding additional colour to our school grounds. The school would like to extend a huge thank you to Clare Matheson, Founder and Director of Little Green Change, for running this session for us. Clare has a Higher National Diploma in Landscape Design & Construction from Capel Manor College, and she works across a wide range of primary and secondary schools in the South-West of England.

Little Green Change offers their environmental activities and learning programmes for FREE to state-funded schools, thanks to funding from local businesses and funding bodies. The bulb planting activity they are delivering at our school is part of their Biodiversity in Schools Project, and has been funded by The Nineveh Charitable Trust. For more information about Little Green Change and their work across UK schools and communities, please see their website: littlegreenchange.com

Wishing you all a wonderful weekend,

Miss Lyons
