- Position and Direction (KS1)
- Position and Movement (KS2)
- Measure - Length, Mass, Capacity and Volume
- Measure - Time
- Statistics - Processing and representing data
- Statistics - Interpreting data
- Money

Literacy:

For Literacy, the children will be reading *Jvy and the Lonely Raincloud* and using the story as inspiration to write their own versions. They will also explore *Super Duper You!*, focusing on their strengths, achievements and aspirations as they prepare for the transition into Year 2. Through these texts, the children will continue to develop their writing, vocabulary and storytelling skills.

Geography:

The children will be learning all about weather this half term. They will identify the different seasonal weather patterns in the United Kingdom and explore how weather can change throughout the year. The children will also learn about the North and South Poles, discover what the equator is, and locate these places on a world map. To finish the unit, they will explore human and physical features in the local environment.

Mathematics:

The children will begin the half term by completing their learning on money and numbers to 100 before moving on to time, where they will learn to tell the time to o'clock and half past. They will also explore mass and volume through practical activities. The term will finish with a consolidation of place value, addition and subtraction. Their fluency focus will be counting confidently in 2s, 5s and 10s.

- E-safety
- Finding things out
- Making things happen
- Programming
- Sharing and reviewing
- Investigating and exploring
- Drawing/Sketching

- Team and competitive games

PHSE:

In PSHE, the children will be exploring the unit *'Changing Me'*, where they will learn about the changes they experience as they grow and develop. They will also spend time preparing for the transition into Year 2, reflecting on their achievements in Year 1 and building confidence and excitement for the next stage of their learning journey.

Extraordinary Earth

PE:

This term in PE, the children will explore the importance of exercise and how it helps to keep our bodies and minds healthy. They will learn how exercise can make them feel stronger, improve their breathing, help their brain and muscles work well, and understand why daily exercise is important through a range of fun and active lessons.

DT:

This half term, the children will be developing their sewing and design skills by learning different ways to join fabric to make a sock puppet. They will explore existing puppets, design and create their own animal puppet, and decorate it using a range of exciting embellishment techniques before evaluating their finished product.

RE:

The children will be exploring the big question, 'How should we care for the world and for others, and why does it matter?' They will learn about the importance of caring for others and building positive friendships, explore how Christians care for their community, and think about ways they can help to care for and improve the world around them.

Science:

This term, the children will be learning about plants and seasonal change. They will explore the signs of summer, carry out and evaluate simple tests, and identify evergreen and deciduous trees by comparing their similarities and differences. The children will also learn about common fruit and vegetable plants and explore the difference between seeds and bulbs through practical activities.

Non Negotiables:
Build a bug hotel and watch the visitors.

Curriculum Enhancements

Last week of term is our annual sports week
Transition day with their new class teacher

SMSC
Learn about mindfulness and how it can help us feel happier.
